**SECTION 1: Identification**

1.1. Identification

- **Product form**: Mixture
- **Trade name**: Foam-Lok LPA 2800
- **Product code**: LPA 2800 - All Grades
- **Other means of identification**: LPA 2800 – FoamLok Resin – All Grades
  - Urethane System Resin Component, B – Component, B – Side, Polyol Resin

1.2. Relevant identified uses of the substance or mixture and uses advised against

- **Use of the substance/mixture**: Two-Component, closed-cell, polyurethane foam system specifically designed to provide a high performance, light weight roofing system for use over insulation water proofing a wide variety of roof deck construction and configurations.
- **Use of the substance/mixture**: A component for the production of spray insulation foam

1.3. Details of the supplier of the safety data sheet

- Lapolla Industries, Inc.
  - 15402 Vantage Parkway East, Ste. 322
  - Houston, Texas 77032
  - Tel: +1 281 219 4100 , (877) 636-2648
  - Email: sds@lapolla.com

1.4. Emergency telephone number

- **Emergency number**: CARECHEM (866) 928-0789

**SECTION 2: Hazard(s) identification**

2.1. Classification of the substance or mixture

- **GHS-US classification**
  - Acute toxicity (oral), Category 4: H302
  - Skin corrosion/irritation, Category 2: H315
  - Serious eye damage/eye irritation, Category 1: H318
- Full text of H-statements: see section 16

2.2. Label elements

- **GHS-US labelling**
  - **Hazard pictograms (GHS-US)**: [GHS05] [GHS07]
  - **Signal word (GHS-US)**: Danger
  - **Hazard statements (GHS-US)**: H302 - Harmful if swallowed
  - **Precautionary statements (GHS-US)**: P264 - Wash hands, face thoroughly after handling

2.3. Other hazards

- No additional information available
2.4. **Unknown acute toxicity (GHS US)**

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

**First-aid measures general**: In all cases of doubt, or when symptoms persist, seek medical attention.

**First-aid measures after inhalation**: Remove victim to fresh air and keep at rest in a position comfortable for breathing. In case of breathing difficulties administer oxygen. In case of irregular breathing or respiratory arrest provide artificial respiration. Seek medical advice.

**First-aid measures after skin contact**: Remove contaminated clothing immediately. Wash skin thoroughly with mild soap and water. Seek medical attention immediately.

**First-aid measures after eye contact**: Rinse immediately with plenty of water for 15 minutes. Contact lenses should be removed. Immediately get medical attention.

**First-aid measures after ingestion**: If swallowed, rinse mouth with water (only if the person is conscious). Call a POISON CENTER or doctor/physician. Give water to drink if victim completely conscious/alert. Never give anything by mouth to an unconscious person. Seek medical attention immediately. If unconscious, place in the recovery position and seek medical advice.

#### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms/injuries**: Causes severe skin burns and eye damage.

**Symptoms/injuries after inhalation**: Inhalation of mist or aerosol may cause irritation to nose and throat. May cause irritation to the respiratory tract.

**Symptoms/injuries after skin contact**: Causes skin irritation.

**Symptoms/injuries after eye contact**: Corrosive to eyes. Causes serious eye damage.

**Symptoms/injuries after ingestion**: Harmful if swallowed. At levels above the recommended exposure limit, the fluorocarbon acts as a weak narcotic. Acute overexposure causes tremors, confusion, irritation, suffocation, and may result in cardiac sensitization.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

**Suitable extinguishing media**: Water. Dry extinguishing powder. Carbon dioxide. Foam.

**Unsuitable extinguishing media**: None known.
5.2. Special hazards arising from the substance or mixture

No additional information available

5.3. Advice for firefighters

Protective equipment for firefighters: Use self-contained breathing apparatus and chemically protective clothing.

Other information: Prevent entry to sewers and public waters.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Stop leak if safe to do so. Spills of this product present a serious slipping hazard. Avoid breathing mist or vapor. Avoid contact with skin, eyes and clothing.

6.1.1. For non-emergency personnel

Protective equipment: Wear suitable protective clothing. Refer to section 8.

6.1.2. For emergency responders

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Ensure adequate ventilation.

6.2. Environmental precautions

Prevent entry to sewers and public waters. If the product has escaped into a water course, into the drainage system, or has contaminated the ground or vegetation, notify the competent authorities.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Take up liquid spill into inert absorbent material. Sweep or shovel spills into appropriate container for disposal. Ensure all national/local regulations are observed.

6.4. Reference to other sections

Refer to sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Avoid mixing with air or use for any purpose above atmospheric pressure. Product should not be mixed with air above atmospheric pressure for leak testing or any other purpose. Use dry nitrogen to transfer or leak test equipment pressurized with product.

Hygiene measures: Wash contaminated clothing prior to re-use. Always wash hands and face immediately after handling this product, and once again before leaving the workplace. Do not eat, drink or smoke when using this product.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Provide local exhaust or general room ventilation. A washing facility/water for eye and skin cleaning purposes should be present.

Storage conditions: Keep out of direct sunlight. Store in original container. Keep container tightly closed in a cool, well-ventilated place. Keep away from heat. Do not freeze. Product that is frozen and/or tending to sedimentation can be liquefied or homogenized by careful application of indirect heat (do not use flames or direct contact with a heat source). Protect from moisture.

Incompatible materials: Keep away from strong acids, strong bases and oxidizing agents.

Storage temperature: 21 - 26 °C (70 - 80 °F)

### Personal protective equipment

### Hand protection
- Wear suitable gloves resistant to chemical penetration. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

### Eye protection
- Eye protection, including both chemical splash goggles and face shield, must be worn when possibility exists for eye contact due to spraying liquid or airborne particles.

### Skin and body protection
- Wear protective clothing.

### Respiratory protection
- Wear a self-contained breathing apparatus and appropriate personal protective equipment (PPE). An approved organic vapor respirator/supplied air or self-contained breathing apparatus must be used when vapor concentration exceeds applicable exposure limits.

12.5. Other adverse effects
Effect on the global warming: No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations. Product wastes can often be incinerated in approved facilities. Consult the appropriate authorities about waste disposal.

Additional information: Do not re-use empty containers. Do not dispose of waste into sewer. Do not cut, grind, drill, weld, reuse or dispose of containers unless adequate precautions are taken against these hazards. Container Disposal: Steel drums must be emptied and can be sent to a licensed drum reconditioner for reuse, a scrap metal dealer or an approved landfill. Refer to 40 CFR § 261.7 (residues of hazardous waste in empty containers). Decontaminate containers prior to disposal. Recommend crushing, puncturing or other means to prevent unauthorized use of used containers. Ensure all national/local regulations are observed.

Ecology - waste materials: Avoid release to the environment. Do not allow into drains or water courses.
